Building Information

C.O. Harrison Elementary School	
Contractual	
General questions	<p>Where are we with our copier machines and our contracts for them? They are continuously being repaired</p> <p>When will we be allowed to have students back into their special/elective classrooms? Specials classes and intermediate classrooms are not switching still ... but teachers are sharing materials in the homerooms because the students are not moving but the teachers are. (BM met with a music teacher and will keep this conversation going)</p>
Other	

Delshire Elementary School	
Contractual	
General questions	<p>Sharing a doc with BM and will be needing further discussion</p> <p>Social emotional well being of the staff - The district has approved funding for a panorama to be done in the future.</p> <p>If in Jan. we are back full time - it is a lot to teach in person, while at the same time, teach quarantine students. It is as if we are doing two teaching models at the same time! A working Wednesday, with no students, would allow teachers to prepare remote and in-school lessons, as well as check in with quarantine students. = would like to mention this as a consideration</p>
